Joey Pickett MTC, MWR, SCI

This class provides an overview of the skills necessary to process water damage restoration. It is ideal for professional and in house staffs, adjusters, managers, and supervisors. The course is taught with a combination of lecture, video, power point, and will actually walk you step by step thru Psychrometry readings and how to use them from an actual job.. It will provide information on the following topics:

- 1) What are 4 categories of water (Yes there are now 4)
- 2) The 4 Classes of a loss and how to use them to determine the proper size, type, & amount of equipment needed
- 3) 3 Conditions that describe the amount of microbial activity.
- 4) Extraction tools and options
- 5) Surface and Subsurface drying techniques.
- 6) When and How to save cushion and much, much more!

Note:

This class is very comprehensive and will require homework.

Student Comments:

“Good is not good enough...Joey was informative, entertaining, and obviously an expert!”

“Attendance at this class should be mandatory!”

“Joey does not speak down to us. He is one of us and relates to us well. He brings extensive personal experience and helps us understand various situations”

“Excellent instructor with plenty of hands-on experience.”

“Joey should be the bench mark for how all other instructors are measured. It is hard to meet his standards.”

“For the first time since I started my business I have a sense of direction of where I want to go and why!”
